

ESCENA

The star of the house, our whim. A wine that has art and personality: a felt tribute to the scenery of the theatre and the cinema, the other great vocation of the author, Manuel Manzaneque, who received the National Theatre Prize. The predominant variety is tempranillo of our oldest grapevines. Our best bunches are selected by hand by our own personnel. It receives a cold fermentaria before maceration at 4 °C for one week to achieve the maximum extraction of primary fruity and floral aromas, which have a high presence in this wine. The malolactic fermentation takes place in new barrels and matures for a long period in French barrels. This wine enormously respects the excellent raw materials from which proceeds and the excellent qualities of the land of the Finca Elez. It is a unique, complex wine, which we recommended you to taste.
