

NUESTRO SYRAH

It is without a doubt one of the great references of Spanish Syrah, since we were among the pioneers in betting on this variety, and our quality has been maintained year after year. It is an intense and aromatic wine, which is known for its fruit (blackberry and currant) and by its floral characteristics of violets. Very sweet. Noticable taste, fleshy in the mouth, concentrated, with sweet tannins, much fruit, tasty and with a long lasting and persistent aftertaste. The adaptation of this variety to the microclimate of the Finca Elez has been a great success.
